DREER'S RELIABLE SEEDS

FOR MARKET GARDENERS

A BASKET OF
VEGETABLES
GROWN FROM
DREER'S SEEDS

For the past eighty-three years the house of "Dreer" has been noted for the high quality of their Vegetable Seeds, and during that time has furnished many leading truckers throughout the Country with their supplies, thus gaining a national reputation for reliability and good quality. We will not under any circumstances send out seeds of doubtful character and for the protection of our customers, invariably make a thorough and critical test of all seeds received from our growers and they must be of the highest degree of germination. During the summer, we also conduct extensive purity tests at our Trial Grounds and thus know the quality of our seeds, both as to their germination and purity. We are now in a position to give prompt attention to all orders and will greatly appreciate your patronage.

D. must be accompanied by a partial remittance to guarantee acceptance. No perishable stock will be sent C. O. D.

Seeds by Parcel Post. We deliver postpaid to any Post Office in the United States, all orders for ounces, quarter-pounds and single pounds of Vegetable Seeds unless otherwise specified. If Beans, Sweet Corn, or Peas are wanted sent by Parcel Post, add extra at the rates given on page on which these seeds are offered. Bulky items, such as Field and Grass Seeds, Onion Sets, Potatoes, Vegetable Plants and Roots, Fertilizers, Insecticides, Garden Implements and Requisites of all kinds are sent by express, or freight at purchaser's expense.

Non-warranty. Henry A. Dreer, Inc., gives no warranty, express or implied, as to description, quality, productiveness, or any other matter, of any Seeds, Bulbs or Plants they sell, and will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms, they are at once to be returned.

Special low express rates. As seeds are now taken, when packed in boxes or bags, by Express Companies at the second-class rate, it is a great advantage to those ordering in quantities which are not offered postpaid to have their orders shipped by express. Large quantities can be shipped cheapest by freight, but require a longer time in transit. If the manner of shipment is left to us, we will always use our best judgment in the matter and decide to the interest of the customer.

Packing. We give special care to packing all orders for Vegetable Seeds and make no charge for boxes, nor for delivery to freight depots or express offices in Philadelphia.

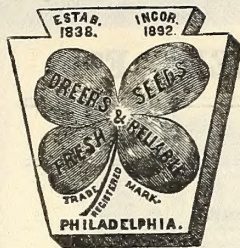

Plant Department. Our nurseries contain nearly three hundred acres, more than ten acres of which are covered by modern greenhouses. We grow and supply large quantities of Palms, Ferns, Roses, Dahlias, Cannas, Hardy Perennial Plants, etc. These are fully described in our *Carden Book for 1922*, a copy of which will be mailed free if you are interested.

Planet Jr. Hand Tools

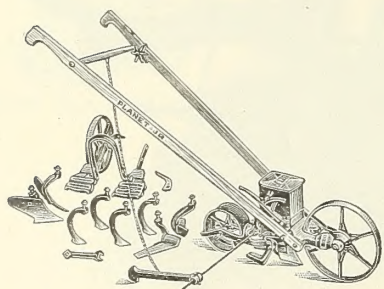

NO. 19 PLANET JR. SINGLE WHEEL HOE

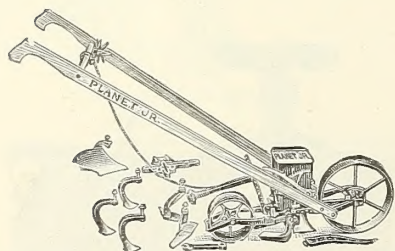

NO. 31 PLANET JR. COMBINED DRILL SEEDER AND SINGLE WHEEL HOE

NO. 12 PLANET JR. DOUBLE WHEEL HOE

NO. 25 PLANET JR. COMBINED HILL AND DRILL SEEDER AND DOUBLE WHEEL HOE

NO. 4 PLANET JR. COMBINED HILL AND DRILL SEEDER AND SINGLE WHEEL HOE

No. 12. Double and Single Wheel Hoe combined. The steel frame of this hoe can be set at different heights to suit any kind or depth of work and the attachments or their positions can be changed in a few seconds. The arch is high enough to straddle a row until plants are 20 inches high; this insures close work. The tool can be made into an admirable single wheel hoe for working between rows. Price \$11.00

No. 3. Hill and Drill Seeder. This is a popular size at a moderate price. It is better to buy separate seed drills and wheel hoes where there is enough work to warrant it. This is the size that should be bought except by the very large market gardeners, sugar beet growers, etc., to whom the No. 5 machine is recommended. Change from hill to drill seeding is made almost instantly. Changes of distance between hills may be made in less than a minute. Capacity 3 quarts. Price \$17.00

No. 5. This is the best seeder for market gardeners and other large planters. The style of construction and mechanical features are the same as the No. 3 machine. Capacity 5 quarts. Price \$18.50

No. 4. Combined Hill and Drill Seeder Single Wheel Hoe, Cultivator and Plow. The small grower should select one of the combined machines. The drill attachment will not be used as often as the hoeing and cultivating tools, but will be a source of much saving. This machine is a special favorite. There are probably more of them in use in the world than any other seeder made. As a Hill and Drill Seeder it opens the furrow, deposits the seed, covers it and rolls it, either in Drills or Hills. Capacity 2½ quarts. Price \$18.00

No. 25. Combined Hill and Drill Seeder, Double and Single Wheel Hoe. This machine is valuable to those having use for all tools but not having sufficient acreage to warrant buying separate tools. As a seeder it is practically the same as No. 4; it sows in drills or drops in hills, 4, 6, 8, 12 or 24 inches apart; has the same feed, hill dropping mechanism and automatic device for stopping the feed, and also a capital seed index. Capacity 2½ quarts. Price \$21.50

No. 31. Combined Drill Seeder and Single Wheel Hoe. This machine is thoroughly well made and offered at a price that makes it pay the very small gardener. It will sow even a small packet of garden seed the proper thickness desired with precision from ¼ to 2 inches deep and in a narrow row. The flow of seed is stopped simply by raising the handles and pressing the coverer down with the foot. Capacity 1 quart. Price . . \$11.50

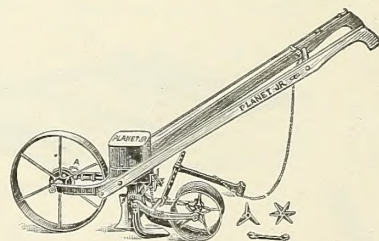

No. 16. Single Wheel Hoe, Cultivator, Rake and Plow. Single wheel hoes are lighter than the double and do almost the same variety of work. They are used mostly between the rows, yet by mounting the wheel on the outside of the arm, Planet Jr. Single Wheel Hoes can be used to hoe both sides at once while the plants are small, the most important time. This tool will do all the work required in the small garden; plowing, cultivating, hoeing and raking. It is very light and can therefore easily be carried about. Price \$9.25

No. 17. Single Wheel Hoe. Identical with No. 16, excepting that the two rakes and leaf-guard are not supplied. Price \$7.75

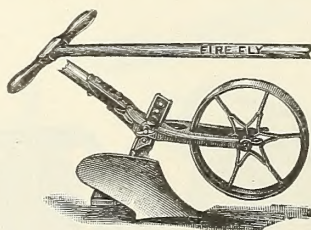

No. 19. Single Wheel Hoe. This is a cheap and effective tool designed especially for the farmer's garden work. It will do all the work that the No. 16 will do, but is of cheaper construction. Price \$6.00

Star Pulverizer. Especially prepared for smoothing and finishing the soil of the seed bed, being much more thorough and rapid than the ordinary garden rake. Price \$6.00

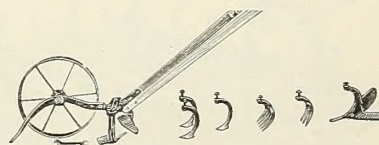

Fire Fly Garden Plow. This tool will throw a furrow four to six inches wide and one to three inches deep. Price . . \$4.00
